

Alexander von Humboldt

The river rinse all around me
Spending time in the water
Sitting in the chair smoking my cigarr
Talking about the day in the evening sun
Spending time in the water

Talking about the day , the days before and the days to come
The talking rinse all around me
Listening to the birds screaming
To our ancestors howling in the nighth
Calling and calling come on come on home
The calling rinse around me

Admiring the stars in sky longing for the homeland
Meteors falling all around me
Feels like Im traveling through the space
Meteors rinse all around me
Spending time in the stary rain

Traveling towards the home
