Running through the dessert
Running for our love
Running for the future
Running for our love

The heat is getting harder
The salt will dry our skin
Digging in the dirt
Digging in the dirt

Are you doing all these things for me
Are you doing all these things for me
Are you doing all these things for me
Are you doing all these things for me

All for me
All for me

Digging in the dirt
Digging in the dirt

Walking through the moonlight
The mirage is dissolving
Its getting colder
So much colder
Our lips are cracking
So much colder
