

Life is on

Theres a lot of things for us to carry through
All this moments searching for a perfect view
A range in which we hope to reach the truth
Retrieving memories to build that kind of brew

lonliness might be what we need
solitude might be what we receive

Well on the way driftin on the tide
We allways make it through the day
Well on the way up on our display
these sacred signs will show the way

life is on

Now theres a lot of things for us to share I knew
A lot of hidden circumstances along the road
Through all these obstacles we ll try to find a flow
Try to find a flow that make us grow

lonliness might be what we need
solitude might be what we receive

Well on the way
driftin on the tide
We allways made it through the day
Well on the way up on our display
these sacred signs will show the way

life is on life is on life is on life is on
